The **Access to HE Diploma** is a national, credit based qualification which prepares students for study at university. It is designed for people who would like to study in HE but who left school without the usual

qualifications, such as A Levels. Diplomas are made up of credit-based units at Level 2 and Level 3. They are an alternative to traditional qualifications and are specifically designed to support adult learners seeking qualifications to get to university and improve career prospects.

To achieve an Access to HE Diploma, students need to complete a programme that includes units of study in relevant subject areas. Students will be taught study skills – learning how to approach study and the different techniques needed to be a successful student. The whole Programme has been designed to ensure that the student is thoroughly equipped for studying at university. For each unit successfully completed, students will earn credits that gradually build towards the 60 credits that are required to gain the full Access to HE Diploma.
